

**LETTER FROM THE EDITOR:**

In this final issue for 1988 we present a timely comment on Closer Economic Relations by Professor R. Baxt, Chairman of the Trade Practices Commission, as well as the most useful annual survey of International Trade Law by the Attorney General's Department.

Our survey of current documents includes those relating to the Timor Gap, a matter of great importance to Australia and our neighbour, Indonesia.

It is pleasing to note that there was general approval for the adoption of our new format. It is proposed to publish at least two issues in this format each year.

David Flint.
