Can you help?

We have been receiving a few enquiries recently in relation to potential plaintiffs in medical negligence matters in which the person has suffered a golden staph infection after having been hospitalised.

We would be interested in speaking with any lawyers who have recently run cases involving infection encountered during a period of hospitalisation. We would be grateful if someone could discuss the relevant issues in relation to liability in such matters.

If any members can help, please call
Neil Andrews, Secombs, on (03) 9689 7000.

We act for a young woman who suffered a ruptured uterus during childbirth due to medical negligence. Her baby died and she has suffered from major depressive disorder with features of post-traumatic stress disorder and excessive compulsive disorder.

She may be no longer be able to have children.

We are seeking information regarding the quantum of damages payable in these circumstances.

We would appreciate hearing from anyone who has been involved in any similar cases, or who has any information about any relevant decided cases.

Please contact
Shayne Neumann,
Neumann & Turnour Lawyers,
on (07) 3221 6377.

We act on behalf of a registered nurse who has developed an inhalant allergy to various antibiotics and has been employed in the Public Hospital System in New South Wales.

Could any members advise whether they have information regarding other employees of the Public Hospital System in New South Wales who have previously suffered such a complaint.

Please contact
Terry Broomfield
Everingham Solomons,
on (067) 66 1066, or by DX 6103, Tamworth.

Throw your Postcode book away!

Australian and NZ postcode software that works with all Windows™ programs.

PostHaste™ works with all Windows™ spreadsheets, databases, word processors and contact managers. It has comprehensive Australian and New Zealand postcodes. There are stand alone, network and DDE Server versions available.

We have the most up to date Australia Post data. PostHaste™ is easy to use - there's no training required.

Your secretary and word processing staff will love it. There are no cumbersome cut & paste operations and no messy macros. PostHaste™ runs under Windows '95 too.

Only \$49.95 for the first licence, \$25 for each additional licence. Generous discounts for site licences are also available.
