(b) the area of the remaining portion or portions of the first-mentioned block (but not including any part of that area in respect of which a permit, licence or oil exploration licence is in force) constitutes a block.

(2) Where a permit, licence or oil exploration licence under the Mining (Petroleum) Act, 1940-1963 ceases to be in force in respect of an area that constitutes a block as provided by paragraph (a) of the last preceding subsection, the Designated Authority may, by instrument in writing, if he considers it desirable to do so, determine that that block shall be amalgamated with another block or blocks, being a block or blocks—

(a) constituted as provided by this section ;

(b) forming part of the graticular section of which that first-mentioned block forms part ;

and

(c) in respect of which a permit or licence is in force.

(3) Where such a determination is made, then, for the purposes of this Part—

(a) the blocks the subject of the determination cease to constitute blocks and the areas of those blocks together constitute a block ;

(b) the block constituted by reason of the determination is, subject to this Part, for the remainder of the term of the permit or licence concerned, a block in respect of which the permit or licence is in force.

(4) The Designated Authority shall not make a determination under subsection (2) of this section except with the consent of the permittee or licensee concerned.

DIVISION
VIII.

DIVISION VIII.—FEES AND ROYALTIES.

Permit fees.

141. There is payable to the Designated Authority by a permittee in respect of each year of the term of the permit—

(a) a fee of One hundred dollars ;

or

(b) a fee calculated at the rate of Five dollars for each of the blocks to which the permit relates,

whichever is the greater.

Licence fees.

142. There is payable to the Designated Authority by a licensee, in respect of each year of the term of the licence, a fee calculated at the rate of Three thousand dollars for each of the blocks to which the licence relates at the commencement of that year.

Pipeline licence fees.

143. There is payable to the Designated Authority by a pipeline licensee, in respect of each year of the term of the pipeline licence, a fee of Twenty dollars in respect of each mile or portion of a mile of the length of the pipeline on the first day of that year.

Time of payment of fees.

144. A fee under any of the last three preceding sections is payable within one month after—

(a) in the case of the first year of the term of the permit, licence or pipeline licence—the day on which that term commenced ;

and

(b) in the case of a year of the term of the permit, licence or pipeline licence other than the first—the anniversary of that day.

145. Where the liability of a permittee, licensee or pipeline licensee to pay a fee under this Division is not discharged at or before the time when the fee is payable, there is payable to the Designated Authority by the permittee, licensee or pipeline licensee an additional amount calculated at the rate of one-third of one per centum per day upon the amount of the fee from time to time remaining unpaid, to be computed from the time when the fee became payable until it is paid.

146. A fee or other amount payable under this Division is a debt due by the permittee, licensee or pipeline licensee (as the case may be) to the State and is recoverable in any court of competent jurisdiction.

147. (1) The conditions subject to which a permit or licence is granted shall include a condition that the permittee or licensee shall, subject to this section, pay to the Designated Authority, a royalty at the prescribed rate in respect of all petroleum recovered by the permittee or licensee in the permit area or licence area.

(2) Subject to the succeeding provisions of this section and to section 148 of this Act, the prescribed rate in respect of petroleum recovered under a permit or licence is ten per centum of the value at the well-head of the petroleum.

(3) The prescribed rate in respect of petroleum recovered under a secondary licence is the percentage determined by the Designated Authority in pursuance of subsection (1) of section 42 of the Act in respect of petroleum so recovered.

(4) Where a secondary licence is granted to the holder of a primary licence, the prescribed rate in respect of petroleum recovered under the primary licence is, as from the commencement of the next royalty period after the day from which the secondary licence has effect, the same percentage as is applicable in respect of petroleum recovered under the secondary licence.

(5) Where—

(a) a licence is granted on an application under section 47 of the Act;

and

(b) the instrument served on the applicant under section 49 of that Act contains a statement that the applicant will be required to pay, in respect of petroleum recovered under that licence, royalty at the rate specified in that statement,

the prescribed rate in respect of petroleum recovered under that licence is the percentage specified in that statement.

(6) Where a licence is granted on an application under subsection (1) of section 51 of the Act, the prescribed rate in respect of petroleum recovered under that licence is the same percentage as was applicable in respect of petroleum recovered under the original licence as defined by subsection (1) of that section.

(7) The prescribed rate in respect of petroleum recovered under a licence granted by way of renewal of a licence is the percentage applicable under the licence before renewal (or, if another percentage is fixed by the Parliament in respect of petroleum so recovered, that percentage) of the value at the well-head of the petroleum.

Reduction of
royalty in
certain cases.

148. (1) Where the Designated Authority is satisfied that the rate of recovery of petroleum from a well has become so reduced that, having regard to the rate of royalty fixed by the last preceding section, further recovery of petroleum from that well would be uneconomic, the Designated Authority may, by instrument in writing, determine that the royalty in respect of petroleum recovered from that well shall be at such rate (being a rate lower than the rate fixed by the last preceding section) as the Designated Authority specifies in respect of such period as the Designated Authority specifies.

(2) The prescribed rate in respect of petroleum recovered, during the period specified in the determination, from the well to which such a determination relates is the rate so specified.

Royalty not
payable in
certain cases.

149. (1) Royalty under this Act—

(a) is not payable in respect of petroleum that the Designated Authority is satisfied was unavoidably lost before the quantity of that petroleum was ascertained ;

(b) is not payable in respect of petroleum that is used by the permittee or licensee, as approved by the Designated Authority, for the purposes of petroleum prospecting operations or operations for the recovery of petroleum ;

and

(c) is not payable in respect of petroleum that, with the approval of the Designated Authority, is flared or vented in connection with operations for the recovery of petroleum.

(2) Where petroleum that has been recovered by a permittee or licensee is, with the approval of the Designated Authority, returned to a natural reservoir, royalty under this Act is not

payable in respect of that petroleum by reason of that recovery but this subsection does not affect the liability of that or any other permittee or licensee to pay royalty in respect of petroleum that is recovered from that natural reservoir.

150. For the purposes of this Act, the well-head, in relation to any petroleum, is such valve station as is agreed between the permittee or licensee and the Designated Authority, or, in default of agreement within such period as the Designated Authority allows, is such valve station as is determined by the Designated Authority as being that well-head.

Ascertainment
of well-head.

151. For the purposes of this Act, the value at the well-head of any petroleum is such amount as is agreed between the permittee or licensee and the Designated Authority, or, in default of agreement within such period as the Designated Authority allows, is such amount as is determined by the Designated Authority as being that value.

Ascertainment
of value.

152. For the purposes of this Act, the quantity of petroleum recovered by a permittee or licensee during a period shall be taken to be—

Ascertainment
of quantity of
petroleum
recovered.

(a) the quantity measured during that period by a measuring device approved by the Designated Authority and installed at the well-head or at such other place as the Designated Authority approves ;

or

(b) where no such measuring device is so installed, or the Designated Authority is not satisfied that the quantity of petroleum recovered by the permittee or licensee has been properly or accurately measured by such a measuring device—the quantity determined by the Designated Authority as being the quantity recovered by the permittee or licensee during that period.

153. (1) Royalty under this Act in respect of petroleum recovered during a royalty period is payable not later than the last day of the next succeeding royalty period.

Payment of
royalty.

(2) Where an amount of royalty under this Act is not paid as provided by the last preceding subsection, there is payable to the Designated Authority by the permittee or the licensee an additional amount calculated at the rate of one-third of one per centum per day upon the amount of royalty from time to time remaining unpaid, to be computed from the time when the royalty became payable until it is paid.

(3) An additional amount is not payable under the last preceding subsection in respect of any period before the expiration of seven days after the value of the petroleum was agreed or determined under section 151 of this Act.

Royalty and
penalties debts
due to the
State.

154. Royalty under section 147 of this Act or payable by reason of section 153 of this Act, or an amount payable under the last preceding section, is a debt due by the permittee or licensee to the State and is recoverable in any court of competent jurisdiction.

PART IV.

PART IV.—REGULATIONS.

Regulations.

155. (1) The Governor may make regulations, not inconsistent with this Act, prescribing all matters that by this Act are required or permitted to be prescribed or are necessary or convenient to be prescribed for carrying out or giving effect to this Act.

(2) In particular, but without limiting the generality of the last preceding subsection, the regulations may make provision for securing, regulating, controlling or restricting all or any of the following matters :—

- (a) the exploration for petroleum and the carrying on of operations, and the execution of works, for that purpose ;
- (b) the recovery of petroleum and the carrying on of operations, and the execution of works, for that purpose ;
- (c) conserving, and preventing the waste of, the natural resources, whether petroleum or otherwise, of the adjacent area ;
- (d) the construction and operation of pipelines, water lines, secondary lines, pumping stations, tank stations or valve stations, and the carrying on of operations, and the execution of works, for any of those purposes ;

- (j) the prevention of water or other matter from entering a petroleum pool through wells ;
- (k) the prevention of the waste or escape of petroleum or water from a pipeline, water line, secondary line, pumping station, tank station or valve station ;

(3) The regulations may prescribe, in relation to the exploration for, and the exploitation of, the natural resources (being petroleum) of the adjacent area, matters for carrying out or giving effect to the Convention.

(4) The regulations may provide, in respect of an offence against the regulations, for the imposition of—

- (a) a fine not exceeding Two thousand dollars ;

THE SCHEDULES

FIRST SCHEDULE.

Section 4.

CONVENTION ON THE CONTINENTAL SHELF.

*The States Parties to this Convention
Have agreed as follows :*

ARTICLE 1.

For the purpose of these articles, the term "continental shelf" is used as referring (a) to the seabed and subsoil of the submarine areas adjacent to the coast but outside the area of the territorial sea, to a depth of 200 metres or, beyond that limit, to where the depth of the superjacent waters admits of the exploitation of the natural resources of the said areas ; (b) to the seabed and subsoil of similar submarine areas adjacent to the coasts of islands.

ARTICLE 2.

1. The coastal State exercises over the continental shelf sovereign rights for the purpose of exploring it and exploiting its natural resources.

2. The rights referred to in paragraph 1 of this article are exclusive in the sense that if the coastal State does not explore the continental shelf or exploit its natural resources, no one may undertake these activities, or make a claim to the continental shelf, without the express consent of the coastal State.

3. The rights of the coastal State over the continental shelf do not depend on occupation, effective or notional, or on any express proclamation.

4. The natural resources referred to in these articles consist of the mineral and other non-living resources of the seabed and subsoil together with living organisms belonging to sedentary species, that is to say, organisms which, at the harvestable stage, either are immobile on or under the seabed or are unable to move except in constant physical contact with the seabed or the subsoil.

ARTICLE 3

The rights of the coastal state over the continental shelf do not affect the legal status of the superjacent waters as high seas, or that of the airspace above those waters.

ARTICLE 4.

Subject to its right to take reasonable measures for the exploration of the continental shelf and the exploitation of its natural resources, the coastal State may not impede the laying or maintenance of submarine cables or pipelines on the continental shelf.

ARTICLE 5.

1. The exploration of the continental shelf and the exploitation of its natural resources must not result in any unjustifiable interference with navigation, fishing or the conservation of the living resources of the sea, nor result in any interference with fundamental oceanographic or other scientific research carried out with the intention of open publication.

2. Subject to the provisions of paragraphs 1 and 6 of this article, the coastal State is entitled to construct and maintain or operate on the continental shelf installations and other devices necessary for its exploration and the exploitation of its natural resources, and to establish safety zones around such installations and devices and to take in those zones measures necessary for their protection.

3. The safety zones referred to in paragraph 2 of this article may extend to a distance of 500 metres around the installations and other devices which have been erected, measured from each point of their outer edge. Ships of all nationalities must respect these safety zones.

4. Such installations and devices, though under the jurisdiction of the coastal State, do not possess the status of islands. They have no territorial sea of their own, and their presence does not affect the delimitation of the territorial sea of the coastal State.

5. Due notice must be given of the construction of any such installations, and permanent means for giving warning of their presence must be maintained. Any installations which are abandoned or disused must be entirely removed.

6. Neither the installations or devices, nor the safety zones around them, may be established where interference may be caused to the use of recognized sea lanes essential to international navigation.

7. The coastal State is obliged to undertake, in the safety zones, all appropriate measures for the protection of the living resources of the sea from harmful agents.

FIRST SCHEDULE—*continued*

8. The consent of the coastal State shall be obtained in respect of any research concerning the continental shelf and undertaken there. Nevertheless the coastal State shall not normally withhold its consent if the request is submitted by a qualified institution with a view to purely scientific research into the physical or biological characteristics of the continental shelf, subject to the proviso that the coastal State shall have the right, if it so desires, to participate or to be represented in the research, and that in any event the results shall be published.

ARTICLE 6.

1. Where the same continental shelf is adjacent to the territories of two or more States whose coasts are opposite each other, the boundary of the continental shelf appertaining to such States shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary is the median line, every point of which is equidistant from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

2. Where the same continental shelf is adjacent to the territories of two adjacent States, the boundary of the continental shelf shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary shall be determined by application of the principle of equidistance from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

3. In delimiting the boundaries of the continental shelf, any lines which are drawn in accordance with the principles set out in paragraphs 1 and 2 of this article should be defined with reference to charts and geographical features as they exist at a particular date, and reference should be made to fixed permanent identifiable points on the land.

ARTICLE 7.

The provisions of these articles shall not prejudice the right of the coastal State to exploit the subsoil by means of tunnelling irrespective of the depth of water above the subsoil.

ARTICLE 8.

This Convention shall, until the thirtieth day of October, 1958, be open for signature by all States Members of the United Nations or of any of the specialized agencies, and by any other State invited by the General Assembly of the United Nations to become a party to the Convention.

ARTICLE 9.

This Convention is subject to ratification. The instruments of ratification shall be deposited with the Secretary General of the United Nations.

ARTICLE 10.

This Convention shall be open for accession by any States belonging to any of the categories mentioned in Article 8. The instruments of accession shall be deposited with the Secretary-General of the United Nations.

ARTICLE 11.

1. This Convention shall come into force on the thirtieth day following the date of deposit of the twenty-second instrument of ratification or accession with the Secretary-General of the United Nations.

2. For each State ratifying or acceding to the Convention after the deposit of the twenty-second instrument of ratification or accession, the Convention shall enter into force on the thirtieth day after deposit by such State of its instrument of ratification or accession.

ARTICLE 12.

1. At the time of signature, ratification or accession, any State may make reservations to articles of the Convention other than to articles 1 to 3 inclusive.

2. Any Contracting State making a reservation in accordance with the preceding paragraph may at any time withdraw the reservation by a communication to that effect addressed to Secretary-General of the United Nations.

ARTICLE 13.

1. After the expiration of a period of five years from the date on which this Convention shall enter into force, a request for the revision of this Convention may be made at any time by any Contracting Party by means of a notification in writing addressed to the Secretary-General of the United Nations.

2. The General Assembly of the United Nations shall decide upon the steps, if any, to be taken in respect of such request.

FIRST SCHEDULE—*continued.*

ARTICLE 14.

The Secretary-General of the United Nations shall inform all States Members of the United Nations and the other States referred to in article 8—

- (a) Of signatures to this Convention and of the deposit of instruments of ratification or accession, in accordance with articles 8, 9 and 10;
- (b) Of the date on which this Convention will come into force, in accordance with article 11;
- (c) Of requests for revision in accordance with article 13;
- (d) Of reservations to this Convention, in accordance with article 12.

ARTICLE 15.

The original of this Convention, of which the Chinese, English, French, Russian and Spanish texts are equally authentic, shall be deposited with the Secretary-General of the United Nations, who shall send certified copies thereof to all States referred to in article 8.

IN WITNESS WHEREOF the undersigned Plenipotentiaries, being duly authorized thereto by their respective Governments, have signed this Convention.

DONE at Geneva, this twenty-ninth day of April, one thousand nine hundred and fifty-eight.

(Here follow the signatures on behalf of the parties to the Agreement, including Australia.)

SECOND SCHEDULE

Section 4.

AREA ADJACENT TO THE STATE OF SOUTH AUSTRALIA.

The adjacent area referred to in section 4 of this Act is the area the boundary of which commences at a point that is the intersection of the coastline at mean low water by the boundary between the States of South Australia and Victoria and runs thence southerly along the meridian through that point to its intersection by the parallel of latitude 38° 10' south, thence south-westerly along the geodesic to a point of latitude 38° 15' south, longitude 140° 57' east, thence south-westerly along the geodesic to a point of latitude 38° 26' south, longitude 140° 53' east, thence south-westerly along the geodesic to a point of latitude 38° 35' 30" south, longitude 140° 44' 37" east, thence south-westerly along the geodesic to a point of latitude 38° 40' 48" south, longitude 140° 40' 44" east, thence south-westerly along the geodesic to a point of latitude 44° south, longitude 136° 29' east, thence westerly along the parallel of latitude 44° south to a point that is the intersection of that parallel by the meridian passing through the intersection of the coastline at mean low water by the boundary between the States of South Australia and Western Australia, thence northerly along that meridian to its intersection by the coastline at mean low water, thence along the coastline of South Australia at mean low water to the point of commencement, to the extent only that that area includes—
