

Māori Fisheries Amendment Bill

Government Bill

Explanatory note

General policy statement

Under the 1992 Fisheries Deed of Settlement (the **fisheries settlement**), the Crown and Māori agreed to a full and final settlement of all Māori claims to commercial fishing rights. The Māori Fisheries Act 2004 (the **Act**) sets out a framework for the allocation and transfer of fisheries settlement assets to iwi, institutional arrangements, and a governance framework for managing fisheries assets for current and future generations of Māori.

The Act requires an independent review of the settlement entities to be completed not later than the end of the 11th year after the commencement of the Act. An independent review was finalised in March 2015. It recommended significant changes to the governance structures of the settlement entities and simplified processes for trading assets.

In accordance with the Act, Te Ohu Kai Moana undertook extensive iwi engagement. They established 2 iwi working groups to develop a set of proposals from the review, consulted widely with iwi on the proposed changes, and held a series of meetings to pass resolutions.

As a result of the review and consultation with iwi, Te Ohu Kai Moana recommended a suite of changes to the Act. The changes are intended to give iwi a greater degree of rangatiratanga over their assets, improve benefits to all Māori, reduce costs, and improve efficiency. This Māori Fisheries Amendment Bill (the **Bill**) amends the Act to give effect to those proposals.

Overview

In general, the amendments provide for—

- mandated iwi organisations and their asset-holding companies to take more direct control of Te Ohu Kai Moana and Aotearoa Fisheries Limited:

- changing governance arrangements of the entities to make them consistent with each other and with standard corporate governance practice:
- cancellation of Aotearoa Fisheries Limited voting shares:
- conversion of Aotearoa Fisheries Limited income shares to ordinary shares:
- Te Ohu Kaimoana to allocate those ordinary shares to mandated iwi organisations:
- simplification of the process for trading settlement quota assets and ordinary shares within the pool of fisheries settlement commercial entities.

Key components

Key components of the amendments are as follows:

- The Te Kawai Taumata electoral-college system for appointing Te Ohu Kai Moana directors is removed and replaced with a new electoral system enabling iwi to directly appoint and remove Te Ohu Kai Moana directors on a 1-vote-per-iwi basis. This shortens the distance between iwi and key decision-makers:
- Te Ohu Kaimoana redeemable preference shares in Aotearoa Fisheries Limited are required to be converted into ordinary shares and distributed to iwi. This change will provide iwi with full influence over key decisions regarding Aotearoa Fisheries Limited as iwi will have direct control over the appointment and removal of Aotearoa Fisheries Limited directors:
- Te Ohu Kai Moana's surplus funds are to be distributed to iwi in accordance with the percentage specified for each iwi in column 3 of Schedule 3:
- The Bill introduces an ability to implement a compulsory levy model for Te Ohu Kai Moana that can be triggered in future if required. The purpose of a funding levy proposal is to provide Te Ohu Kai Moana with enough funding (having regard to its likely other funding sources and reserves) to enable it to perform its functions and duties:
- The current Aotearoa Fisheries Limited legislative dividend requirement is modified to allow shareholders to set it annually:
- Major transactions for Aotearoa Fisheries Limited will require a 75 percent iwi majority voting threshold. With Te Ohu Kai Moana no longer playing a governance role in Aotearoa Fisheries Limited, a change is required to enable iwi to take over this role:
- The maximum director limit for Te Pūtea Whakatupu Trust and Te Wai Māori Trust is increased from 3 to 5, with a majority quorum, the appointment term of directors is changed from 4 years to 3 years, and restrictions are removed on the number of terms that a director can serve:
- Simpler trading processes have been developed for iwi wishing to sell quota assets within the Māori pool. This change will enable iwi to sell their settlement assets to a willing buyer within the Māori pool without notifying all members within the Māori pool and running a bidding process:

- A requirement is introduced for a future review of governance entities:
- Te Ohu Kai Moana is enabled to allocate distributions to any entity that has charitable status and is nominated by the mandated iwi organisation. This will allow Te Ohu Kai Moana to distribute funds directly to charitable entities within the mandated iwi organisation or post settlement governance entities structures without being liable for tax:
- The Bill clarifies electoral provisions in mandated iwi organisations' constitutions:
- The Bill simplifies the process for recognising post settlement governance entities as new mandated iwi organisations:
- Current restrictions on mandated iwi organisation directors being appointed as directors of the respective asset-holding companies are removed:
- The Bill clarifies the definition of freshwater fisheries.

This Bill's amendments include tohūto (macrons) on words in te reo Māori (the Māori language) to reflect current orthographic conventions. The published consolidation of the principal Act as amended by this Bill will also include editorial changes to provisions not amended by this Bill. All provisions of that consolidation will therefore include tohūto on words in te reo Māori to reflect current orthographic conventions.
