4. (1) The scheme established under Part IX of the repealed Act continues in existence for the settlement of claims and other matters arising in relation to death or disablement from silicosis suffered before the appointed day with the following qualifications:

(4) For the purposes of the division of the Mining and Quarrying Industries Fund into two parts—

(a) the Public Actuary must, as soon as practicable after the transfer of money to the Corporation under subclause (1), and thereafter at three yearly intervals, estimate the extent of the Corporation's existing and prospective liabilities under that subclause;

and

(b) (i) if it appears from any such estimate that the amount standing to the credit of Part A exceeds the amount required to satisfy the Corporation's liabilities under subclause (1), the amount of the excess must be transferred from Part A to Part B;

(ii) if it appears from any such estimate that the amount standing to the credit of Part A is less than the amount required to satisfy the Corporation's liabilities under subclause (1), the amount required to make up the deficiency must be transferred from Part B to Part A.

(5) The Corporation must keep separate accounting records for Parts A and B.

(6) Money standing to the credit of the Mining and Quarrying Industries Fund (and not immediately required for the purposes of the fund) may be invested as if it were part of the Compensation Fund.
